Mike:

Please continue to search each week. Also, is there any added value to checking the X-Ref file?

Thanks,
Mark

Not on store level data base - looked for all brands with class, 1st and first in title.

My Datanet store level database is not working properly. Can you look for this brand by total US and by section. Show weekly volume for the last 13 weeks. (FYI... This will be the sort of thing that we catch automatically when we get our new brand id system in place)

2062335905

Thanks,

Mike
